“Life is full of beauty. Notice it. Notice the bumble bee, the small child, and the smiling faces. Smell the rain, and feel the wind. Live your life to the fullest potential, and fight for your dreams.”

Ashley Smith

MY NAME IS ORSI.

I'm a Life & Business Coach and Motivational Speaker.

In July 2015 I decided to leave the corporate world behind and follow my heart. I was ready and determined to embark on my new adventure. As I have always been passionate about coaching people, helping them realise that even their worst fear can be overcome, the decision to set up my own coaching business came easily.

I know a career change can be rather scary and challenging but with the right mindset, a supporting network and a coach that we can fully trust, everything is possible. To prove my point, I decided to write a book about my transition period, called **[“JUMP – How to achieve absolutely ANYTHING in just 3 months”](#)**. That book is now available on Amazon.

I would like to encourage you all to live each day to the fullest, with clear awareness of what is important, and the knowledge of how fragile life can be.

FINANCIAL FREEDOM – WHAT / WHY / HOW

We all have dreams of where we would like to be, or what we would like to do. But more often than not, these dreams never see the light of day, simply because we don't actively pursue them. Please, don't let your dreams remain on the shelf. Bring them to life today.

I truly believe that it is never too late to be who you are meant to be. I know for sure that with my unlimited support and full faith in you, you also can achieve absolutely ANYTHING.

So what are you waiting for? JUMP!

THE AREAS OF MY EXPERTISE ARE:

- working with ladies and helping them reconnect with their hearts and find their way back to their feminine side and
- supporting everyone who is ready to change their financial destiny and start moving towards achieving financial freedom.

I am here to listen to your dreams, aspirations and stumbling blocks and then together, we can get you moving in the direction you desire.

Don't just dream about your ideal life, make it a reality.

My motto: Live life to the fullest, love with all your heart and help others do the same!

THE STORY OF MY LIFE

I still can't believe that not so long ago, I was one of those people who had no vision for the future and just existed from one day to another. That was the only life I knew that I felt safe in. With the knowledge and experience, I have today, I wouldn't even call that a life, it was barely surviving.

I'm so pleased that nearly 4 years ago, I finally took the courage to jump and leave the corporate world behind. When I wake up these days, I feel not only happy and fulfilled, but I also have a beautiful purpose that I'm extremely passionate about, and along with that I constantly have a smile on my face.

I'm currently expanding my businesses in South-East Asia which is a big challenge, but extremely exciting. I can't wait to assist you too to take the same journey and go through the same process as I did and feel that after a long time, you are finally alive. I would love for you to understand that there is nothing to lose here, the same old and boring job will always be there for you if you need it. The truth is, though, that you would never want to go back! When you finally get out of the prison of the corporate world and feel the joy of freedom, you realise that there is an amazing, so far unknown, life out there.

(Please note that many people are happy with having a 9-5 job, and I respect that. I'm only talking about my own experience here, and the fact that you are reading this gives me the impression that you are in the same boat as I was and ready to jump soon.)

FINANCIAL FREEDOM – WHAT / WHY / HOW

Before you move on to producing a massive passive income, let's stop here for a second and see

- what resources you have to become a big financial success and
- why you so desperately would like to become financially free, and live a lifestyle you've always desired.

1. Let's start with identifying what resources you have to become a big financial success! **HOW?**

So first I'd like you to finish my next sentence:

I deserve to be wealthy, because....

Please state 5 different qualities that you already have, and that either make you unique, or you strongly believe that anyone with similar attributes should be financially free.

Examples:

- I have an "everything is possible" mentality
 - I'm great at managing people
- I can always take a few steps back and see the big picture
 - I'm focused
 - I see opportunities everywhere
 - I'm very disciplined
- I give a massive value to other people's lives
 - I'm fantastic at managing my money
 - etc.

FINANCIAL FREEDOM – WHAT / WHY / HOW

So go ahead and find your top 5 attributes that will no doubt make you rich.

1.
2.
3.
4.
5.

Once you have completed the task, I'd like you to place this list somewhere in your house, where you can see it all the time. It will serve you as a reminder when you face some setbacks or challenges to never give up as you have already got what it takes to become financially free.

2. The second thing I'd like you to do is think about **WHY?** it is so important for you to be rich.

So please list 10 different things that you would like to do with your money.

Remember the bigger your WHYS, the easier the HOWs!

- Do you want to travel more?
- Is there an organisation that you would really like to sponsor?
 - Would you like your kids to have a great lifestyle?
 - etc.

FINANCIAL FREEDOM – WHAT / WHY / HOW

1.
2.
3.
4.
5.
6.
7.
8.
9.
10.

Now that you have the list in front of you, I'd like you to rate them one by one on a 1-10 scale (1 being not so important and 10 being very important for you to achieve).

After this exercise you will probably see that some reasons are super important while others are just there to fill the space. So go ahead and cross everything off your list that you have not given at least a 9 or 10 rating to.

Superb, now you know, what your true reasons are to become wealthy. Once again, place this revised list next to your top 5 qualities so you can revisit them any time, when you need some encouragement.

3. Your last task for the day is to come up with a precise number that you would like to earn on a yearly basis. WHAT?

Most people like to say big numbers when it comes to this exercise, not even knowing how detrimental that could be. As soon as they state their “magic number”, they instantly get scared as the amount is so high and impossible to achieve. I'd like you to think about your current lifestyle, things that you currently cannot afford, but would like to have and come up with a number for next year.

How much income would make you happy?

.....

Once that is done, please break that yearly goal down into monthly amounts and then finally let's see what that means for you on a daily basis.

This number is not so scary any more, is it?

Obviously you can do a 5 or 10-year plan too, but for now let's focus on our 1-year objective.

Please write down this number on a separate list or post it and place it next to the others.

Well done, now you have a what, why and how board that will keep you reminded if you get side-tracked or lost in your daily challenges.
